Discussion Prompts

About the film:

- *Why does the prince decide to clean the sun?*
- *How does the prince feel when he has completed the task? How do you know?*
- *What happens when the prince goes to bed? Do you think he is aware of the consequences of his actions?*

Beyond the film:

- *How might our actions have unintended environmental consequences? Who might they affect? (You could discuss the interconnectedness of this global issue.)*
- *What changes could we all make to protect the environment?*
